

ENABLING SECURE AND RESILIENT OPERATIONS

Security, intelligence, cyber and resilience for organisations and governments

INTELLIGENCE & RISK ADVISORY

Understand the operating environment through focused intelligence and analysis across political, security and operational risks. We support leadership teams in making informed decisions on market entry, operations and partnerships.

- Political, security and regional risk analysis
- Market entry and operational risk assessments
- Enhanced due diligence (entities and individuals)
- Investigations (fraud, reputational, third-party risk)
- Supply chain and partner validation
- Intelligence reporting and threat monitoring

RESILIENCE & CRISIS MANAGEMENT

Build organisational resilience through practical planning, structured processes and real-world readiness for disruption. We ensure clients are prepared to respond effectively to crises and maintain operational continuity.

- Crisis management planning and frameworks
- Business continuity and resilience design
- Scenario exercises and crisis simulations
- Security risk assessments and SOP development
- Preparedness training and leadership briefings
- Ongoing programme review and improvement

CYBER SECURITY

Protect critical systems, data and operations against evolving cyber threats through practical, intelligence-led security. We support organisations in understanding, assessing and mitigating digital risk in line with their operating environment.

- Cyber risk and threat assessments
- Penetration testing and vulnerability identification
- Security architecture and control reviews
- Incident response planning and cyber readiness
- Data protection and information security frameworks

GOVERNMENT ADVISORY

Navigate complex government and regulatory environments through informed engagement and strategic positioning. We support organisations in building effective relationships and aligning with national priorities.

- Government stakeholder mapping and engagement strategy
- Strategic advisory on regulatory and political environments
- Market entry support and government alignment
- Facilitation of high-level introductions
- Ongoing advisory on public sector dynamics

HOW WE CREATE IMPACT

UNDERSTAND THE ENVIRONMENT

Actionable intelligence aligned to real decisions, enabling leadership to operate with clarity.

INCREASE PREPAREDNESS

Practical frameworks and training designed to function in real-world conditions.

REDUCE CORPORATE EXPOSURE

Structured approaches to identify, mitigate and manage risk in line with organisational tolerance.

DELIVERING SECURITY, INTELLIGENCE AND RESILIENCE IN COMPLEX ENVIRONMENTS

Structured, discreet and operationally focused support for organisations operating in high-risk and dynamic environments.

HOW WE WORK

ASSESS

We build a clear understanding of your operating environment, risk exposure and strategic priorities through targeted intelligence, analysis and stakeholder engagement.

DESIGN

We develop tailored frameworks, plans and governance structures aligned to your organisation's risk profile, operational footprint and decision-making requirements.

DELIVER

We support implementation through training, advisory and ongoing engagement to ensure capability is embedded, effective and aligned to real-world conditions.

WHERE WE ADD VALUE

OPERATIONAL IMPACT	WHY AFRICAN STRATEGIC
✓ Improved decision-making in complex and uncertain environments ✓ Reduced exposure to political, security and operational risks ✓ Stronger organisational preparedness and response capability ✓ Stronger organisational preparedness and response capability	✓ Discreet, senior-led advisory approach ✓ Experience operating in complex and emerging environments ✓ Integrated security, intelligence and operational perspective ✓ Practical, implementation-focused support (not just reports) ✓ Trusted partner model with ongoing engagement

WHO WE SUPPORT

Organisations entering new or higher-risk markets

Companies operating in politically or security sensitive regions

Infrastructure, energy and logistics projects

Government and public sector entities

Family offices and high-net-worth individuals
